NEIGHBORHOODS COMMITTEE

Item #: 201801862

MOTION, submitted by Councilmembers Landsman and Seelbach, WE MOVE that the Administration provide two reports related to excellence in customer service. First, a report on the state of pothole repairs, and overview of the claims process, ways in which we can make it more reliable for citizens, recognizing that recommendations may have budget implications. We would to better understand those budget implications within 60 days of the new year. The Enquirer recently reported that five people they spoke with had, "...been through the city's pothole-claims process - three of whom had their claims denied-and each offered the same piece of advice: Follow up. Submitting the paperwork once is not enough, they said. The process requires multiple follow-up calls and e-mails, or the claim just gets lost." Second, a report on the city's helpline", 591-6000 - for "Citizen Service Request". The report would include general usage data as well as top requests, average wait times, holiday coverage and other customer service measures we might be tracking. The report should also include recommendations from the Administration to improve services, recognizing that many of these recommendations may have budget implications. We would like to better understand those budget implications within 60 days of the new year.
